

## FOND DU LAC HUMANE SOCIETY

### "SWEETIE MEDICAL FUND"

**Sweetie** (pictured above) is a cherished pet whose life and fate inspired the establishment of the emergency medical treatment fund for our local shelter cats and dogs. This fund helps pay for the animal's special medical needs or emergency medical treatment.

**Sweetie** was a stray kitten abandoned in a box outside the Shelter in 2003, with several serious wounds. The loving shelter staff recognized she had a will to live and found a local veterinarian, Country Hills Pet Hospital, to assist with her special medical needs. Realizing she was in otherwise good health, Country Hills performed surgery on **Sweetie**, removing her right eye and right rear leg. She made a complete recovery and has easily adapted to her physical challenges. She soon found a loving home in which she thrives today!

**Sweetie** is one of the lucky ones that received a Second Chance. Not all animals are as fortunate as **Sweetie** because funds are not readily available to pay for special medical procedures. Please open your hearts and consider a donation towards the "**Sweetie Medical Fund**" so our shelter can help other special needs animals who also deserve a Second Chance!

Every single donation helps!

Thank you for your continued support of the Fond du Lac Humane Society.
